

# 5G O-RAN: Simplifying Training for Wind Power Operations

## Smart Wind Power - Virtual and Real Integration Training System

Wind power plays a crucial role in Taiwan's goal of achieving net-zero emissions. However, the operation of wind turbines requires professional training. 5G private networks integrated with VR/MR technology can simplify such training.

### Project Results

**#First in the World** | The 5G XR wind power virtual reality integration and simulation training system reduces the costs of offshore wind power training and significantly enhances the education and training of professionals.

**#Enhancing the Competitiveness of the Wind Power Industry** | Creating a domestic wind power industry cluster, and driving the transformation and upgrade of the wind power industry chain.
